WELCOME

FROM THE PRINCIPAL

Welcome to St Thomas Independent School. It is my privilege to introduce our 2027 Information Pack at a moment of real momentum for our community. Over the past year we have grown not only in numbers, but in the depth of what we offer. Our commitment remains constant: high-quality, affordable education grounded in Afrocentric and Christian values, where every child is known, supported, and stretched to reach their potential.

In 2027 we build on that foundation. Our learners gain mentorship, leadership, and real exposure to universities and careers. Our growing focus on STEM, coding, and robotics prepares them for a world reshaped by technology, while our reading and academic-support programmes secure strong fundamentals from Grade R to Grade 12.

Character matters as much as achievement. Our values respect, responsibility, cooperation, hard work, and persistence are lived every day: on the sports field, in the debating chamber, in cultural activities, and in service to others. Safe, reliable scholar transport and small, attentive classes give parents peace of mind and learners the stability to thrive. As we look ahead including plans to expand our facilities and reach. I invite you to walk this journey with us, so that every learner steps confidently onto the ladder of excellence and success.
